Agentic AI: What Is It and How Will It Transform
Freight Forwarding?

Director's Message

Nils Walle

Director & CEO

Hey X2 Family,

X2's 10th Anniversary Was EPIC. And This Is Just the Beginning!

Still buzzing from Pattaya? Because we are.

A massive thank you to every single one of you who joined us at the 10th Annual X2 Conference. Whether you flew across continents or joined us with that signature X2 energy, you made it unforgettable. Over 635 forwarders. One beachfront resort. Countless memories (and maybe a few stories best left off the record).

We're proud of what we've built together over the past decade, not just events, but a real community. One that laughs, learns, and levels up together.

In this newsletter:

A full recap of X2 Conference 2025 featuring our Photo Gallery, held May 7–11 at the Centara Grand Mirage Beach Resort in Pattaya. [Photo Gallery](#)

And an industry feature that's as cutting-edge as it gets: "Agentive AI – What It Is and How It Will Transform Freight Forwarding".

Yes, we're going there.

X2 isn't just about partnerships, it's about staying ahead, adapting fast, and growing smarter together.

Thanks again for your ongoing trust and support. Here's to another year of growth, connections, and, of course, a few more legendary parties along the way.

Cheers from Vancouver!

Nils Walle

X2025

10th Annual Conference
07-11 MAY **PATTAYA**, THAILAND

We're delighted to share a recap of the unforgettable moments from the X2 10th Annual Conference, held in Pattaya, Thailand. This year's event was especially meaningful as it marked our first decade together.

We proudly welcomed over 635 freight forwarders from around the world to celebrate this milestone with us.

www.x2logisticsnetworks.com

X2 REGISTRATION

X2025 in Pattaya kicked off with a lively registration session, where delegates enjoyed a refreshing free flow of beverages, setting the tone for an atmosphere of camaraderie, energy, and excitement.

Partners Logistics Peru Celebrating 16 Years of Success and Dedication

Lima, Peru – Partners Logistics Peru our X2 Elite, X2 Projects, and X2 Cold Chain members proudly celebrate 16 years of exceptional service in the forwarding industry, marking a significant milestone in its journey towards becoming a leading logistics provider in the region. Since it was founded in 2009, the company has been committed to offering top-tier customer service, driven by a highly skilled team of professionals and an unwavering dedication to meeting the diverse needs of its clients.

In line with its growth, Partners Logistics Peru is also excited to announce the opening of its new office in Lima Cargo City. The new location will allow for streamlined logistics operations and a closer connection to the region's major air and sea ports, further enhancing the company's capabilities.

With the strong support of both domestic customers and international partners, Partners Logistics Peru has grown rapidly over the years. The company's flexible leadership and commitment to innovation have allowed it to build a solid reputation for delivering high-quality, tailored logistics solutions. As part of its ongoing commitment to excellence, the company has expanded its portfolio of services, ensuring it remains at the forefront of the industry.

Happy Anniversary to Raul Bravo Yuli and team!

March 26 2025

AeroTrans Air Successfully Ships Tons of Aircraft Engines

X2 Elite member, AeroTrans Air has successfully completed a significant shipment of 7 commercial aircraft engines from India to Dallas, USA, marking a major milestone in international logistics. The total weight of the shipment reached 39 tons, with each engine playing a crucial role in this successful transport.

The shipment, which took place in January 2025, faced some logistical hurdles. While AeroTrans had originally scheduled the delivery of 7 engines, space constraints at Cathay Pacific's hub in Hyderabad only allowed room for 3 engines. As a result, the company had to organize the movement of the remaining 4 engines from Hyderabad to Mumbai via Air Suspension Truck.

Despite challenges with carrier space availability and the approval process at Cathay Pacific, AeroTrans navigated the issues with precision, submitting all necessary documentation in a timely manner. This led to the successful approval of the shipment and ensured smooth transport.

The cargo was transported over a 5-day transit time, and the clearance process proceeded without any complications.

Hats off to Sajith K Nair and team!

Massive Milestone: Emirates Logistics India Transports 78.6 meter Windmill Blades to Europe!

www.x2logisticsnetworks.com

March 26 2025

Emirates Logistics India Transports 78.6 meter Windmill Blades to Europe

A huge congratulations to Emirates Logistics India for successfully transporting 78.6 meter long windmill blades from Kandla Port, India, to Europe! This first-of-its-kind operation, involving 15 blades (5 sets of 3 blades each), is a testament to their expertise in handling oversized cargo with precision and efficiency.

The team faced several unique challenges throughout the project. The ultra-long length of the blades required specialized handling and expert maneuvering to prevent any structural stress or damage. Additionally, the delicate nature of the blades meant that every detail, from their placement to secure stowage, had to be carefully planned to meet international shipping standards.

Overcoming port infrastructure limitations and optimizing transportation routes were crucial to the success of the operation. Emirates Logistics' deep understanding of port operations and global logistics networks allowed them to navigate these challenges with ease, ensuring the safe and efficient delivery of the blades.

This milestone solidifies Emirates Logistics India's reputation as a leader in renewable energy logistics and project cargo solutions.

Once again, well done to the entire team for delivering excellence in complex logistics operations!

Successful Heavy - Lift Operations Showcase Logistics Expertise

www.x2logisticsnetworks.com

March 31 2025

Successful Heavy-Lift Operations Showcase Logistics Expertise

A huge congratulations to the Balena Projects team for the successful execution of two remarkable heavy-lift projects. These operations highlight their expertise in managing oversized cargo with precision and efficiency. At Houston Port, the team successfully handled the direct discharge of a 103,100 kg transformer. This complex operation required meticulous planning, specialized equipment, and seamless coordination.

Using polyester round slings, steel chains, and wooden dunnage, they ensured the cargo was securely positioned for transit. The team worked closely with truckers and terminal staff to execute the discharge and transportation smoothly, delivering the transformer safely to its final destination. Meanwhile, another major achievement involved the transportation of a heavy press machine from the Far East to North America through the Great Lakes ports. The project required chartering a vessel to transport 96 crates of dismantled components, including multiple heavy-lift pieces weighing up to 185,000 kg each.

The team executed a flawless two-day direct discharge using tandem cranes, followed by a five-day inland journey where a 500-ton gantry crane facilitated offloading. Due to limited space at the assembly facility, the cargo was transloaded onto an SPMT before undergoing a two-week reassembly process. These achievements reinforce the team's expertise in complex logistics, heavy-lift transport, and operational excellence.

Congratulations once again on delivering outstanding results in the world of specialized freight solutions!

Vector Celebrates B Corp Certification Milestone and Successful Helicopter Shipment

Vector Global Logistics, a proud X2 Elite member and award-winning logistics provider, is celebrating B Corp Month alongside the one-year anniversary of its B Corp Certification. As one of over 10,000 certified companies worldwide, Vector continues to show its dedication to social and environmental progress. Through special B Corp-themed episodes on its podcasts—Logistics With Purpose and Supply Chain en Español—the company is spotlighting the value of using business as a force for good.

Co-founders Enrique Alvarez and Brian Oxley have emphasized their mission to maximize stakeholder value, ensuring the company benefits not only customers but also employees, communities, and the environment. Internally, Vector is engaging its team through training, a book club, and fun activities like B Corp Bingo, while also welcoming leading voices from the B Corp community on upcoming podcast episodes.

Alongside this celebration, Vector recently demonstrated its logistics expertise by successfully managing the international shipment of a high-value MD 600 N helicopter. Carefully disassembled and packed into a 40-foot High Cube container, the helicopter was transported from Phoenix, Arizona, to San Antonio, Chile—showcasing Vector's precision and skill in handling complex, cross-border operations.

Congratulations to Enrique, Brian, and the entire Vector team on this milestone achievement!

Triple Recognition for Outstanding Air Cargo Partnerships

A huge congratulations to Ashish Asaf & S.A. Consultants & Forwarders Pvt. Ltd. team for their outstanding triple achievements in 2024. Their unwavering dedication to service excellence and strong airline partnerships continues to set them apart in the industry. They were proudly awarded a Certificate of Appreciation by Turkish Cargo for their outstanding support and cooperation throughout the year.

This acknowledgment reflects the trust and collaboration built between both teams. Their performance was further celebrated by United Airlines Cargo, who honored them with the United Cargo Top Agent Award for being a key contributor and top supporter in 2024.

Adding to the momentum, Cathay Cargo presented S.A. Consultants & Forwarders with the prestigious Wings of Excellence certificate, recognizing their role in driving growth and strengthening Cathay's operations.

Well done to the entire team for continuing to lead with consistency, commitment, and excellence across global air freight networks. Here's to reaching even greater heights.

Galaxy Freight Named Best Time Critical Cargo Agent at CargoNXT 2025 Partnerships

A big Congratulations to Galaxy Freight Pvt Ltd team for being awarded the Best Time Critical Cargo Agent at CargoNXT Recognitions 2025 – West, held in Mumbai on 25 April. This achievement is a powerful reflection of the relentless commitment and precision of Galaxy's time-critical team, who operate around the clock to deliver urgent and sensitive cargo. From odd-dimensional equipment to temperature-controlled pharma and time-sensitive project deliveries, their dedication ensures no shipment is ever left behind.

The prestigious award, presented by Cargo Insights, celebrates the unwavering spirit of logistics professionals who power global trade through every challenge. The event was graced by esteemed dignitaries and senior officials from Indian Customs and the Ministry of Shipping, reinforcing the significance of this recognition within the industry.

Akbar Sheikh (Associate VP) and Poonam Rawat (Customer Service and Overseas Coordination Manager) accepted the award on behalf of the Galaxy Freight team. Their leadership and commitment continue to inspire excellence in time-critical logistics.

Congratulations once again to the entire Galaxy Freight team for delivering when it matters most.

June 9 2025

Hawk-Ellery NZ Handles Intricate Timber Charter with Expert Coordination

Congratulations to Scott Ellery and Hawk-Ellery Freight Services Limited team on the successful charter and transport of 91 curved timber beams from Auckland to Melbourne. Ranging from 7 to 30 meters in length, with a total weight of approximately 300 metric tonnes, these timber arches required more than just standard freight handling. The widest pieces curved up to 6 meters, making transport and stowage a true test of logistics expertise.

As a cargo agent, Hawk-Ellery NZ coordinated every aspect of the move: from lifting and stevedoring to surveying, fumigation, and export clearance. A unified berth and fumigation zone were strategically selected to allow smooth road delivery, minimize port movement, and streamline vessel loading at a single location. A detailed lifting plan with double slinging was put into place to ensure proper weight distribution and safety. By limiting the number of arches per lift and planning each step with care, the team delivered all three charters seamlessly.

This project highlights the power of proactive communication, detailed planning, and risk mitigation in handling complex cargo. Proud to see this level of excellence within the X2 Projects.

Well done to the entire Hawk Ellery team for executing with precision!

Megagon.Global Delivers 105-Ton Cargo from Italy to the UK

Congratulations to Omer Omeroglu and the Megagon.Global team for another outstanding delivery, this time managing the road transport of a 105-ton cargo unit from Italy to the United Kingdom. Measuring 28.50 x 4.70 x 4.40 meters, the shipment pushed the boundaries of size and weight, yet was delivered smoothly, safely, and on schedule.

From route planning to execution, every kilometer of the journey demanded precision and resilience. This achievement highlights the expertise and dedication of Megagon.Global's road transport team, who continue to set a high standard in managing complex logistics across Europe.

Once again, well done to the entire team for another job expertly done.

TICC Exports ODC Machinery Parts to Durban

TICC recently managed a successful consignment involving the export of an electrical generator from Nhava Sheva to Durban. The generator, measuring 2.35 meters in width and weighing 2.5 tons, was securely loaded into a 20-foot Open Top (OT) container.

Demonstrating their expertise in handling Over-Dimensional Cargo (ODC), the team efficiently utilized the 20' OT container to optimize space and reduce costs for our valued customer. The machinery part was safely shipped to its destination, Durban, ensuring both operational efficiency and client satisfaction.

Hats off to Aksh Thakkar and team!

Agentic AI: What Is It and How Will It Transform Freight Forwarding?

The world of logistics is evolving rapidly, and the next wave of innovation is being driven by Agentic AI. Unlike traditional large language models (LLMs) like ChatGPT, which respond to user prompts, Agentic AI takes initiative. It doesn't wait to be asked. It observes, decides, and acts on your behalf. In the freight forwarding industry, this shift from reactive to proactive automation is a game-changer.

What Is the Difference Between Agentic AI and LLMs?

Think of LLMs as intelligent assistants. You ask a question, and they respond. They are powerful, but they require direction.

Agentic AI, by contrast, behaves more like a virtual team member. It monitors systems, predicts needs, makes decisions, and carries out tasks without constant supervision. It works with people but doesn't wait on them. In logistics, that means a significant boost in efficiency, responsiveness, and consistency.

Practical Deployment in Freight Forwarding

Here is how freight forwarding companies can use Agentic AI across different functions:

1. Operations – Task-Oriented Freight Agents

AI Freight Ops Agent: Tracks shipments in real time, identifies delays or missed milestones, and automatically notifies customers and internal teams. It can trigger rebookings or alert human operators to escalate problems.

Pain Points Solved: Manual shipment tracking, delayed responses, and lack of visibility.

2. Sales – Autonomous Lead Converters

AI Sales Agent: Scans CRM data continuously, spots warm leads from previous inquiries, and follows up with tailored messaging. It can handle lead nurturing without waiting for sales reps to take action.

Pain Points Solved: Missed opportunities, delayed follow-ups, and poor lead conversion.

Newsletter Topic

3. Customer Service – Always-On Support Agents

AI Customer Service Agent: Responds to emails, chats, and WhatsApp messages with instant updates, FAQs, or escalations to human agents. It logs interactions to maintain full visibility and ensure follow-through.

Pain Points Solved: Overloaded service teams, repetitive inquiries, inconsistent communication.

4. Marketing – Content and Campaign Engines

AI Marketing Agent: Reviews recent shipment activity, market news, and customer behavior to create relevant posts, newsletters, and targeted campaigns. It can also schedule and publish them across platforms.

Pain Points Solved: Lack of consistent marketing, limited content generation, poor engagement.

Why This Matters

In an industry where timing, accuracy, and communication drive success, Agentic AI delivers measurable improvements. It eliminates routine tasks, reduces errors, and enables teams to respond faster to customer needs and market conditions.

Logistics companies that adopt Agentic AI will not only save time but will also shift from reacting to challenges to anticipating them. It gives forwarders a competitive edge in a landscape that demands agility and dependability.

Final Thought

Agentic AI is more than automation. It is an active collaborator within your team, helping freight forwarders operate smarter, faster, and more strategically. For X2 members looking to build future-ready businesses, the time to explore Agentic AI is now.
